7195 Hwy. 33, Farmerville, LA 71241

RSVP – Register online at www.r8at.com

Or contact Amanda Tull—888-368-9727

Classroom Suite 4 is a unique intervention tool that combines direct instruction with a flexible tool environment to help students in grades Pre K through 5 achieve mastery in reading, writing and math.

Classroom Suite 4 provides students with explicit instruction, constructive practice and embedded assessments to allow teachers to gauge progress and individualize instruction for their students.

Classroom Suite 4 includes research-based activity templates that can be used out-of-the-box, or easily customized to meet targeted needs.

Lessons can even be sequenced into “intelligent” units to align with district or core curriculum.

Classroom Suite 4 features:

- Reading instruction aligned with national standards
- Math instruction targeting number sense and Automaticity
- Writing templates across many genres
- Creativity tools for whole class instruction and student presentations
- Early Learning activities for emergent learners

These features result in less teacher training and technology support.

Seating is limited, so please register early!

Workshops are free and CLU's will be given at the end of the session
